- Backend: Node.js, Express.js
- Databases: MongoDB, MySQL
- APIs & Testing: REST APIs, Axios, Jest, React Testing Library
- Tools & Workflow: Git, GitHub, VS Code, npm, Yarn, Vite, ESLint, Prettier
- Additional: Responsive Web Design, Mobile-First Development, PWA Fundamentals

PROJECTS

1. HyperCampus - Learning Management System

Stack: React, Tailwind CSS, JavaScript

- Built a responsive learning platform to browse courses, enroll, and track progress.
- Designed dynamic React components for course creation and progress tracking.
- Source: https://github.com/Shubho-Debnath/Hypercampus-LMS

2. University Project Management System (Academic Project)

Stack: HTML, CSS, Bootstrap, PHP, JavaScript, SQL

- Developed an academic system for managing 3rd & 4th year student projects.
- Implemented registration, supervisor assignment, and milestone status tracking.
- Source: https://github.com/Shubho-Debnath/University-Project-Management-System

3. Service Hiring Web App

Stack: React, JavaScript, CSS

- Built a responsive web app for booking service professionals (electricians, mechanics).
- Designed a modular component interface prioritizing reusability and intuitive search.

4. E-Commerce Website

Stack: HTML, CSS, JavaScript

- Developed a responsive storefront with dynamic product catalog and live shopping cart.
